

Multi-lingual Access to Newspapers and Magazines: PressReader Database

The [PressReader](#) database contains a collection of 7000+ digital newspapers and magazines in 60+ languages, all in their original format.

You browse/search by specific title or category. Categories include Business & Current Affairs, Computers & Technology, and News. Additional topics are Fashion, Automotive, Food & Drinks, Sports, Gaming, Home & garden, and Travel & Culture, and more.

Browse publications by country/region or language

On the far right of the home page, use the **All Countries/Regions** or **All Languages** menus to make your selections.

Next, select a category to view all the publications that match your filters.

Determining back issues of publications

Typically, you only have access to the most 60-90 days of a publication, but it varies depending on the title. The only way to determine which previous issues are available is to click on the image of a specific publication. For example, for Newsweek, the most recent issue and previous 10 issues/weeks is available. Forbes only provides access to one issue at a time, and there is a 2 month embargo.

Getting help

Go to the **Help Center** for “how to” videos, learn how to enable text to speech, steps for downloading the app, access the [Quick Start Guide](#), and more.
